About Me

I am a full-stack web developer proficient in JavaScript, React, and Express. I have 10 years of experience in Food service, which allowed me to develop my teamwork, leadership, and communication skills. I also have a strong background/interest in working on teams to get the job done.

Skills

Software skills: React, Node/Express, PostgreSQL, HTML, JavaScript, Jquery, & CSS.
Web Development: Ability to work on client side or server side of website.

Recent Projects

[Refuge Maps](#) | [GitHub](#)
- Interactive App which allows users to input location and find nearby refuges.
- Mainly tasked with connecting to server and displaying data on to Google Maps.
- Built with Jquery, Javascript, Google maps API, HTML & CSS.

[TBM](#)| [GitHub](#)
- Ecommerce App that uses dummy data stored in a database that allows users to add items to cart, checkout, clear cart and more.
- Mainly tasked with front-end tasks like creating the shopping cart and fetching data from the server.
- Built with Reactjs, Express/Node, PostgreSQL, JavaScript, HTML, & CSS.

[Sopranos](#) | [Github](#)
- Menu App made for Sopranos pizza (a family owned business that I have worked at for about 10 years).

Experience
